All

Prior art documents discussed:

none

**Part II.**

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

See Continuation Sheet

**Part III.**

- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.
- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

BRUCE F. BELL  
PRIMARY EXAMINER  
GROUP 1746

(Examiner/SPE Signature)

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: Discussed that there are two claims in the application both of which were found on the same page no. but on separate pages. Neither claim was numbered and the paperwork said there was only one claim in the application. A call was made to determine if there was only one claim in the application. Mr. O'toole indicated that only one claim should be in the application and that the claim with only 3 lines directed to the titanium base and coated with manganese dioxide with a thickness of 3mm and porosity of 5 to 45% was the claim that they wanted examined. .
